Learning Tips

1

Read

Obviously! You will take in information better if you read it yourself. Hold on to your handouts and notes.

2

Take notes

This is so important for you as the act of writing notes makes you remember. Always carry a pen and paper and write everything down.

3

Re-write

Once you've taken notes, re-write them. This repetition is the best way to get information to stay in your brain.

4

Use your words

When re-writing your notes, try to put things in your own words. This will help you remember concepts and facts better.

5

Translate

If you are struggling with a diagram, try adding notes to explain it or even translating it into your own words.
